

20 April 1956

Dr. Max Millikan
CENIS
Massachusetts Institute of Technology
Cambridge, Massachusetts

Dear Mr. Millikan:

I am sending herewith a draft text of our NIE 100-3-56, "Sino-Soviet Policy and Its Probable Effects in Underdeveloped Areas", which Jim Graham, Chief of our Far East staff, would very much appreciate your looking over. Would you pencil in any comments you may have; it will be returned to us by the gentleman who brings it.

We had very much hoped to have your comments before any final action was taken by the IAC. However, the deadline has been very much shortened, and the IAC is now scheduled to act on it next Tuesday, the 24th - the same day on which you will receive it. Even so, Mr. Graham would be very interested in your reactions to this draft which is approved by the Board and will be considered by the working level agency people over this coming weekend.

Thank you very much. We were sorry not to see you at the last set of meetings and hope you can make it for the next ones, late in May.

Sincerely yours,

STAT
